

Electronics Technologist

Victoria, BC

On behalf of our client, **FTS Forest Technology Systems**, we have an outstanding opportunity for an **Electronics Technologist** to join the Service Team in their growing **Langford, Victoria**-based company. If you, are an Electronics Technologist or Technician with experience in remote monitoring environments and you want to join a world leader in this unique high-tech field, then read on!

Do you have experience working in remote locations installing and maintaining remote environment monitoring equipment? Do you thrive on assembling, testing, troubleshooting, calibrating, configuring, and integrating system components and sensors? Are manual dexterity, high reliability soldering, good mechanical aptitude and strong computer knowledge part of your tool kit? And do you bring good interpersonal communication skills, excellent customer relation skills, and a team player approach? If you answered yes to these questions, then we encourage you to keep reading!

This role does include long and short-term field assignments in remote areas across North America. During peak seasons, this may mean travelling up to 2 weeks per month to install and maintain remote environment monitoring systems. This includes working in mountains, forests, near water, at heights, and exposed to the elements. A keen approach to safety is a must!

Our Ideal Candidate:

- Electrical Engineering Technology post-secondary education, or equivalent experience as an Electronics Technician working in environmental monitoring.
- Electronics Technologist or Technician experience working in remote monitoring environments.
- Experience working with IP cameras and a firm understanding in IT is required.
- Good manual dexterity, high reliability soldering, and good mechanical aptitude
- Strong troubleshooting and problem-solving skills.
- Good understanding of computer systems and proficiency in Microsoft Office suite.
- Have good interpersonal communication skills.
- Excellent verbal and written communication skills.
- Display a professional and customer focused approach.
- Quality focused individual ready to multitask in a challenging and fast paced environment.

About FTS:

FTS - Forest Technology Systems Ltd. is a world leader in the design, manufacture and service of rugged, easy-to-use, environmental monitoring systems that help monitor the world's remote natural environments. FTS is a growing, privately-held Victoria-based company committed to industry leading excellence in our industry.
